ABOUT ME

Results-driven AI and Data Science undergraduate with practical experience in machine learning, Android development, and the creation of AI-powered applications. Proficient in designing and implementing end-to-end AI solutions, including data processing, model development, and deployment. Committed to leveraging AI technologies to develop innovative solutions that address challenges in healthcare and drive social impact. Eager to contribute technical expertise and passion for transformative technology to impactful projects.

SKILLS

- **Programming Languages:** Python, Java, JavaScript, HTML5, CSS3
- **Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn
- **Backend Databases:** MongoDB, MySQL, Firebase, Express.js, Node.js
- **Frontend:** React, Next.js, Tailwind, Framer Motion
- **Tools & Platforms:** Git, GitHub, VS Code, Google Colab
- **Concepts:** Data Structures, OOPs, DBMS, Computer Networks, OS

EDUCATION

Bachelor of Technology in Artificial Intelligence and Data Science 2024- 2027
P. R. Pote Patil college of Engineering and Management, Amravati, Maharashtra SGPA :- 8.01

Diploma in Computer Science 2021-2024
Panjabrao Deshmukh Girls Polytechnic Amravati , Amravati Maharashtra Percentage:-80.23

INTERSHIPS

Android Development Internship - MOUNTREACH SOLUTION PVT.LTD June 2023 – July 2023

- Completed hands-on industrial training in Android application development.
- Worked with Android Studio, Java, and XML to build UI components and application workflows.
- Gained practical exposure to activity lifecycle and real-world mobile app development practices.

Java & Python Development Internship - MOUNT-TECH ELECTROSOFT PVT.LTD 2023 – 2024

- Completed internship in Advanced Java and Python programming.
- Worked on core Java concepts (OOPs, collections, exception handling) and Python logic building.
- Strengthened backend programming skills and problem-solving ability.

ACHIEVEMENTS

- **Awarded Certificate of Achievement powered by Hack2skill for participation in Google Solution Challenge 2024:** Developed and presented “**MediRoots**”, an AI-powered healthcare assistant.
- **Finalist in Smart Hackathon 2024:** Presented “**The Blood Donor Finding System**”, a centralized platform for connecting blood donors and recipients at **SGBAU**.
- **3rd Winner** – Multidisciplinary Minor Project Exhibition 2026 for “**AutoSeatX**” organized by Department of Computer Science & Engineering, **PRPCEM**.

PROJECTS

MediRoots – AI-Powered Voice-Enabled Healthcare Assistant

- Built an **AI-based healthcare** assistant that reads handwritten prescriptions and provides **voice-guided medicine instructions**.
- Integrated **OCR**, chatbot support, and text-to-speech for accessibility-focused healthcare delivery.
- **Tech Stack:** Kotlin, Jetpack Compose, ML Kit (OCR), Gemini API

AutoSeatX – Smart Exam Seating Management System

- Developed a web-based system to automate exam seating allocation and reduce manual errors.
- Implemented optimized seat allocation logic and generated downloadable PDF seating reports.
- Added student seat locator and feedback modules for improved usability and transparency.
- Designed scalable architecture for educational institutions and examination departments.
- Tech Stack: HTML, CSS, JavaScript, Firebase, PDF Generation

NGO Website & Online Donation Platform (Shree Sai Avarat Bahuuddeshiya Sanstha)

- Developed a responsive NGO website (shree sai avatar) with integrated online donation functionality.
- Implemented secure donation flow using **Razorpay** (test mode) and modular frontend design.
- **Tech Stack:** HTML, CSS, JavaScript, Razorpay, Firebase(Firestore, Auth, Hosting), GitHub

Blood Donor Finding System

- Developed a web-based system to connect blood donors with recipients efficiently
- Implemented donor search based on blood group and location
- Built secure user registration and login functionality
- Designed a responsive interface and managed backend using PHP and MySQL
- **Tech Stack:** HTML5, CSS3, JavaScript, PHP, MySQL, Bootstrap

CERTIFICATIONS

- **TCS iON Career Enhancement Programme** – Completed a 9-week program on communication, interview preparation, presentation skills, and corporate etiquette.
- **Generative AI Intensive Course – Google & Kaggle**
Covered Prompt Engineering, RAG systems, AI agents, fine-tuning, and MLOps with Vertex AI.
- **Build Your Own Generative AI Model – NxtWave**
Hands-on workshop on building custom generative AI applications.
- **Hackathon 26 Grand Finale Participant** – P. R. Pote Patil College of Engineering & Management (2026)
- **State Level Technical Paper Presentation** – Maharashtra State Board of Technical Education (2024)
- **TechnoStream 2024 Paper Presentation** – Dr. Panjabrao Deshmukh Polytechnic, Amravati
